

ONE TON !.....and counting...

You may have seen Ron Wallace present his 40 minute recollection of what he did to grow the World Record 2009 and the 1872 pound Giant pumpkin. There was so much information and it went by so fast... Well now we have captured (in a 1 hour and 45 minute DVD), a far more detailed record of events leading up to this World Record event.

Ron personally sat down with us and carefully recalled all the techniques and details of his record breaking year in this DVD, with photos, powerpoints, numerous reports and narrations of EVERYTHING he did.

Cost of the DVD is \$20 in the US including P&H, or \$25 for international orders.

To receive your copy of the DVD, send your mailing address and cash or check, made out to Steve Connolly to:

Steve Connolly
622 Massapoag Ave
